## About STIL Design

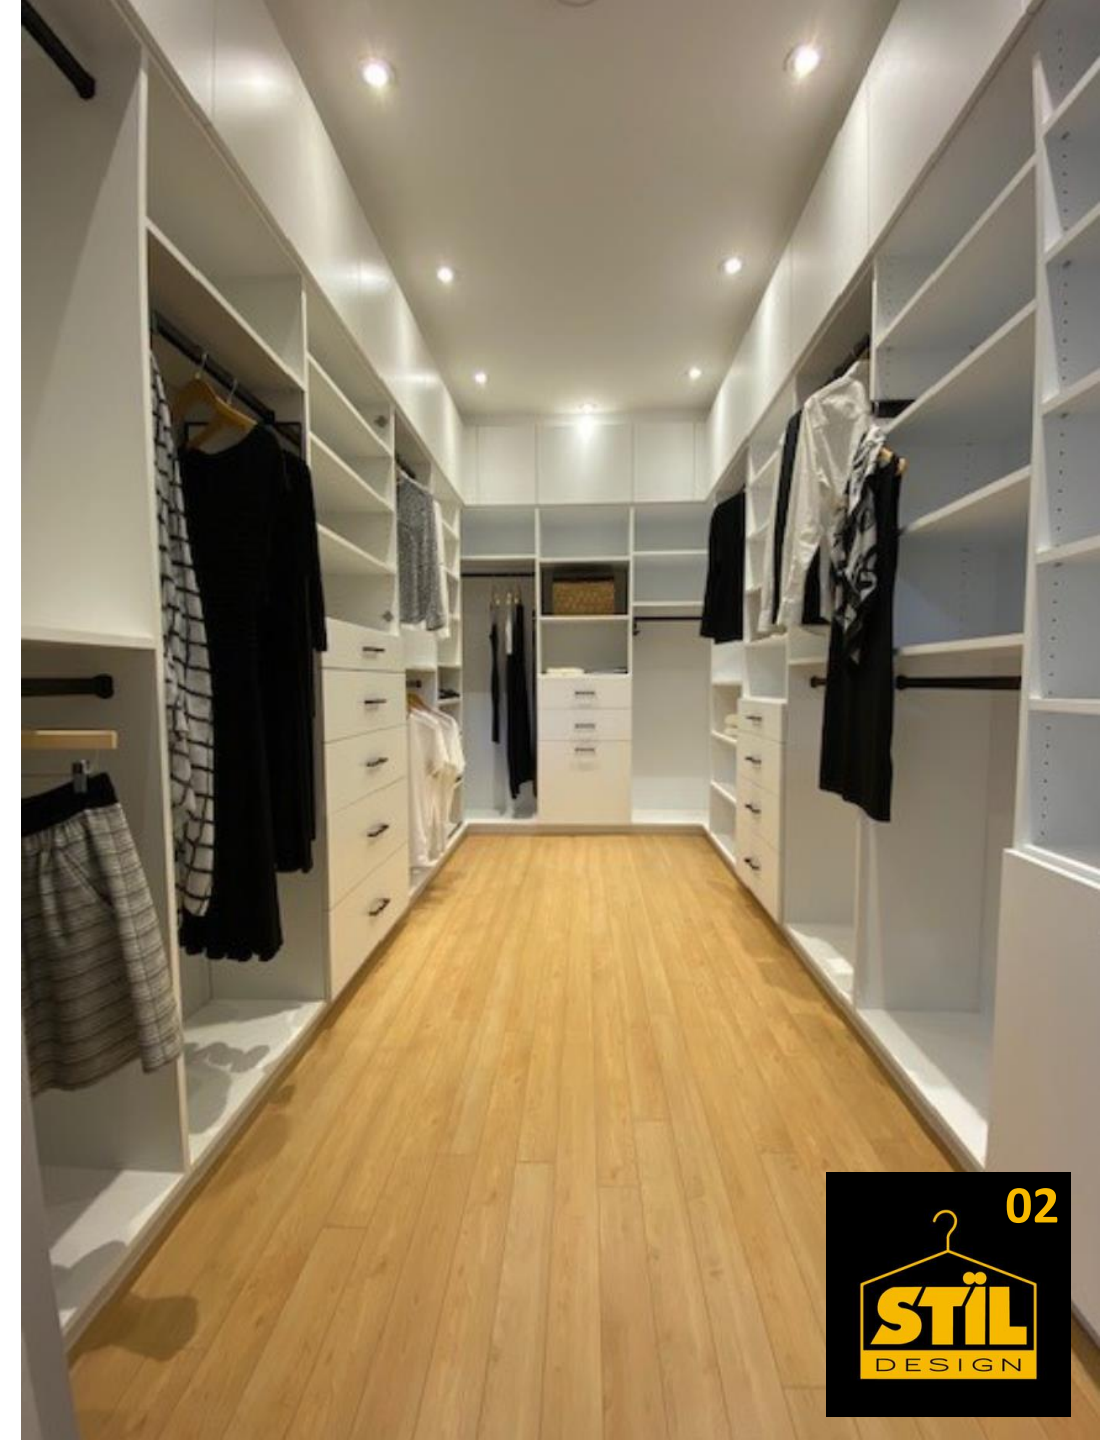

At **STIL Design**,

we pride ourselves on the quality and integrity of all of our installations.

As a family run business, we are free from franchise fees and the associated limitations.

Being an independent company allows us to create our own standards and procedures.

**STIL Design's** standards are simple: 3/4" Melamine, soft close drawers and doors, undermount drawer glides and fully customizable size options.

## Included in our Base Price \$

WIRE TILT OUT	573mm (22.559’)	N/A
TAG TILT OUT	669mm (26.339’)	N/A

# How to measure your garments

## Hanging items:

- Do not overcrowd your garments. Try to space all items evenly
- Group all similar length garments together
- Measure the linear foot / inch of each length (short hang 39" or less, medium hang 52" or less, long hang 72" or less).

*1 linear foot is equal to 12 inches.*

## Folded items:

- Group all similar style garments together. Group items how you want them to be organized in your new closet (example: all jeans together, all t-shirts together)
- Keep the piles between 9" & 12" high
- Folded items will eventually live on shelves and in drawers. Think about where you would prefer these items end up

## Based on my needs, in my new closet I would like to organize:

1. How much short (39" or less) hang total? \_\_\_\_
2. How much medium (52" or less) hang total? \_\_\_\_
3. How much long (72" or less) hang total? \_\_\_\_
4. How many piles of folded clothes? \_\_\_\_
5. How many drawers? \_\_\_\_
6. Existing rod space? \_\_\_\_

List any other specific needs or desired accessories:

## How to measure linear foot/inches:

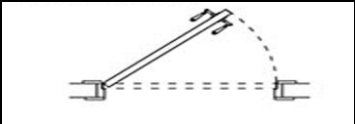

## How to measure garment length:
